

Perfect refrigeration for **every** store

“Advanced refrigeration based on our market leading knowledge and experience”.

Our refrigeration packs come with the most up to date compressors, inverters and controllers, our storage solutions offer you the ultimate no nonsense approach.

We can check your existing refrigeration is doing it's job and we also specialise in upgrades to your existing Pirie refrigeration units.

**Energy
efficient
refrigeration
systems using
advanced
multi
compressor
packs.**

- Uncompromised quality and total control.
- Defrost on demand with Eco saving features.
- Inverter Drives on main fans linked to refrigeration.
- Head pressure control.
- Using environmentally friendly R407A since 2012.
- VFD controlled compressors.
- Low weight loss.

Our latest refrigeration packs can give savings up to 45% over some older refrigeration packs.

Contact us to discuss what we can do for you.
